

Long Term Development (LTD) Foundational Documents - Contributors

Skate Canada has been working toward our newly revised Long Term Development (LTD) Framework. This revision included the creation of our LTD Foundational Documents.

We would like to thank the many coaches, officials, and subject matter experts who generously shared their time, experiences, and knowledge over this past year. Skate Canada is working toward a roll-out of these new resources to our skating community in September to coincide with the new registration year.
